**USING GAMES FOR CERT
LEARNING AND TEAM
BUILDING**

Randy James

South Lake County Regional CERT

Gamification

The application of typical elements of game playing (e.g. point scoring, competition with others, rules of play) to other areas of activity, typically as an online marketing technique to encourage engagement with a product or service:

“Gamification is exciting because it promises to make the hard stuff in life fun”.

Examples

- CERT Jeopardy
- Disasterville tabletop game
- Building the tallest tower using construction paper
- Using 2-way radios to communicate maps, diagrams, instructions to build a Lego model, etc.
- Transporting cups of water over a distance
- Using “clues” for teams to navigate to a specific location, find instructions, and perform a task.
- “Light weight” skill competitions among teams
- “Where’s Waldo” – use pictures and videos to identify specific objects, behaviors, tasks, risks, situational awareness, etc.
